

We have come to the end of the second quarter of our fiscal year (October 2024-September 2025). To meet budgeted giving for the year, we need to receive \$209,000 in giving each quarter. In the first quarter we received \$26,000 more than that amount. During the second quarter, we received just over \$8,000 less. Therefore, YTD we are about \$18,000 ahead of budgeted giving. Thank you for your generosity!

We can gladly report that if the second half of the fiscal year matches the first half – if all of us continue with our generosity precisely as we have over the past six months – CCC will be in a healthy financial position. That said, we would also love to see our next two quarters meet or exceed the target of \$209,000. Healthy finances like this lend strength and stability to our current ministries and create new opportunities for expanded ministry in the future. May we continue to see Christ's kingdom expanded through CCC!

Q1 Giving:	\$234,798
Q2 Giving:	\$201,040
